# About ATSS

Arab Tech Surveillance and Security (ATSS) was established in 2017, servicing high tech security systems, communication systems and renewable energy systems under the umbrella of Future Arab Investment PLC value at 24 million Jordanian Dinars operating out of Amman, Jordan.

# Our Mission & Vision

Arab Tech Surveillance and Security Incorporation is dedicated to continuously provide safer, secure and shielded compelling solutions through security products. Our Mission is to:

- Distribute leading edge Surveillance and Security.
- Seeks to provide professional technical services together with high quality
- Products at competitive prices.
- Provide total solution to our customers.
- Build a loyal customer base in Jordan.
- Increase Compute market share in Jordan.
- Increase our distribution areas by adding new partners

Vision Statement: We believe in continuously providing security solutions, communication systems and renewable energy to birth a safer and more flawless environment, as we believe that focusing on security trends is essential in order to create a safer guarded environment for the longevity of businesses and the people.

# Technical Team

We pride ourselves having invested in talented and skilled experts ranging from engineers, communications, and surveillance technicians to deliver the utmost customer satisfaction experience. Having undergone intensive workshops across the country enabled us to confidently provide a safer environment ranging from international corporations to the brick and mortar small time businesses.

# Products & Services

## Security Services and Solutions

- Security services.
- Surveillance and security systems solutions.
- Surveillance cameras and peripherals.

## Video Conferences Solutions

- Network Video Recorder
- Digital Video Recorder
- Transmission & Display & Control

# Products & Services

## Communication Solutions:

- Provide expert advice and installation of both wired and wireless telecommunication solutions.
- Conduct studies and detailed research for communication related projects leveraging years on years of hands on experience and knowledge outreach.
- Create bespoke custom tailored communication technical solutions that caters to your business and fits the needs of your operations.

## Renewable Energy Solutions:

- Having invested in believing to be the pioneers in bringing renewable energy solutions to the market built our confidence in supplying expert knowledge in the installation of renewable energy systems for a safer cost effective environment.

# Products & Services

## Smart Fence Solutions:

We provide Smart Fence as physical barrier combined with performance sensors and as the most sophisticated and robust solution for perimeter intrusion detection

## Security Gate Systems:

Offering a complete line of commercial and industrial perimeter security systems to suit your individual needs for all security gate system surveillances.

## Body & Machine scanners:

Detects objects on a person's body for security screening purposes, an innovative alternative method to physical search.

## X-Rays & Metal Detectors:

Inspection equipment needs to be selected in a manner that it is the most suitable for the intended application that exhibits a high level of sensitivity, easy-to-use, fully automatic, robust, reliable and cost-effective such as our X-ray & metal detector technology.

# About Uniview

Uniview is the pioneer and leader of IP video surveillance. Firstly introduced IP video surveillance to China, Uniview now is the third largest player in video surveillance in China. In 2017, Uniview had the 6 th largest global video surveillance market share.

Uniview has complete IP video surveillance product lines including Network Camera, NVR, IP Storage, Decoder, Keyboard, Switch, Monitor and Network Cable, covering a diverse vertical markets including retail, building, industry, education, commercial, city surveillance etc.

Our aim is to become a global leader in video surveillance industry who endeavors to build a safer world by providing professional, reliable and cutting-edge products and services.

# Aiming to Excellence

**6<sup>th</sup>** largest video surveillance manufacturer in global market

**140** countries covered

**Nearly 100%** annual growth rate in overseas market

**13** years of IP video surveillance experience

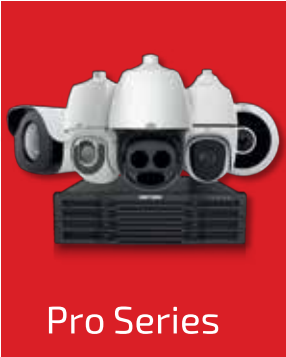

**>15%** revenue invested into R&D

# About BYD

BYD is a high-tech company devoted to technological innovations for a better life. Founded in February 1995, BYD has grown from a start-up with only 20 employees into a global company with 220 thousand employees today. Throughout its 23 years of high-speed growth, BYD has established over 30 industrial parks across six continents and has played a significant role in industries related to electronics, automobiles, new energy and rail transit. From energy generation and storage to its applications, BYD is dedicated to providing zero-emission energy solutions. BYD is listed on the Hong Kong and Shenzhen Stock Exchanges, with revenue and market capitalization each exceeding RMB 100 billion.

*Build Your Dreams*

# Products

BYD has developed PV+Storage, a new business model focused on renewable energy production, storage and applications, designed to change the world by leveraging new energy solutions.

## Batteries

BYD is the world's leading producer of rechargeable batteries: NiMH batteries, Lithium-ion batteries and NCM batteries. BYD owns the complete supply chain layout from mineral battery cells to battery packs. These batteries have a wide variety of uses including consumer electronics, new energy vehicles and energy storage.

*Build Your Dreams*

## Solar Power

BYD has significantly reduced the cost of solar module production, making the total cost of solar power and coal-fired electricity equivalent. This has accelerated the popularization of solar power and made clean energy available to the general public.

## Energy Storage

Relying on the advanced iron-phosphate battery technology, BYD can meet the requirements for energy storage, peak-load shifting and peak load/frequency regulation. By improving supporting facilities for renewable energy generation, promoting ancillary service for the power market, and aiding the transition to clean energy worldwide, BYD is building a clean and sustainable future.
